

Hello there -

Here is the TV attachment you purchased for someone with a hearing impairment. We hope it brings that person some real happiness and enjoyment.

The attachment is simple to install. A TV repairman or a "handy" friend can do it. The two alligator snap on plugs attach to the terminal of the speaker of your TV set. Sometimes it is necessary to remove the back of the set to get at the speaker. BE SURE TO REMOVE THE PLUG FROM THE WALL SOCKET

FIRST! If you aren't familiar with these things, get help from someone who is.

You will find the TV attachment is about 20 feet long and will extend to a favorite chair, a comfortable viewing distance from the set. The ear hanger can be removed and reversed for use on either ear. The round "button" or receiver then hangs at the ear opening. Now the sound is transmitted directly to the ear so that the wearer hears well while other viewers have the volume set at a comfortable level. HAPPY LISTENING!!!

At the same time, we can't help but wonder what the user of the attachment does for hearing at other times. What about the pleasant conversation that is being missed? What about church, theatre, and social gatherings? All of the happy sounds of everyday living such as birds singing?

A good well fitted hearing aid brings so much happiness it is like being born all over again.

Why not investigate today? A phone call will set up an appointment for me to see you in the privacy of your home or in our air conditioned private examining rooms. I will carefully check your hearing, at no cost, with the latest equipment to determine the characteristic and extent of the hearing loss. Then you can see for yourself if a hearing aid will help you.

We have every known style or type of hearing aid. New all in the ear models with no cords or buttons to stick out. Others snuggle behind the ear and are so tiny. Still others hide in your glasses and are light, comfortable, and inconspicuous. We even have eyeglass models with nothing in the ear! And we will rent you any model or style of hearing aid for one month for as little as \$6.00! The rental will be applied to the purchase if you decide to buy (you are not obligated to buy). We have new hearing aids for as little as \$87. Comfortable terms can be arranged to fit any budget.

If you haven't checked on hearing aids lately, do so now. Revolutionary improvements have been made.

Enjoy living again. Call DI-1-9595 for an appointment.

Cordially yours,

ACOUSTICON HEARING AIDS, INC.
