

## Sound Wizard Testimonials:

"I have a 50 dB loss in both ears and wear pretty powerful hearing aids. Noisy places have always been a problem and I tried to avoid them. With the Sound Wizard, I now enjoy going to restaurants, meetings, and concerts. The Wizard's directional mic and frequency control are wonderful! I can hear and really enjoy music again."

—T.L., San Mateo, CA

"The Sound Wizard has kept my 80 year old mother active in real estate sales. She was on the verge of quitting because she could not hear her clients talk to her even though she wears very good fitting hearing aids. If they were away from her or if it was noisy she could not understand their conversation. Now, she simply points the Wizard towards the person and she is in business."

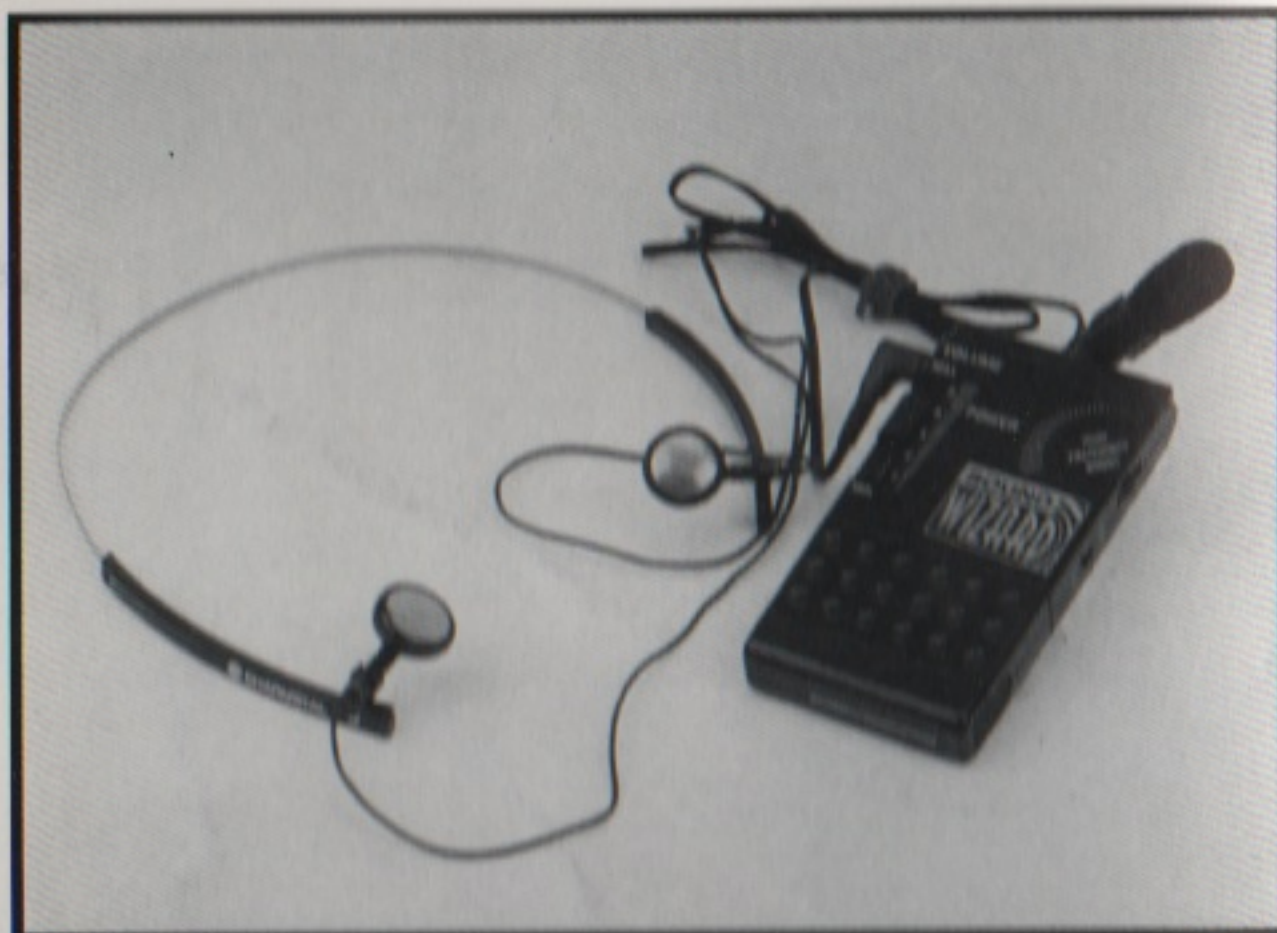

—I.S., Milwaukee, WI

"The Sound Wizard has turned my life around. I live in a retirement center full of wonderful people my own age but I was becoming isolated. When we were in the dining room or other gatherings, there was just too much sound and I couldn't understand the words. Rather than say or do the wrong thing, I stopped participating. With my hearing aids and the Sound Wizard, I now hear so well that my friends come to me to learn the latest gossip."

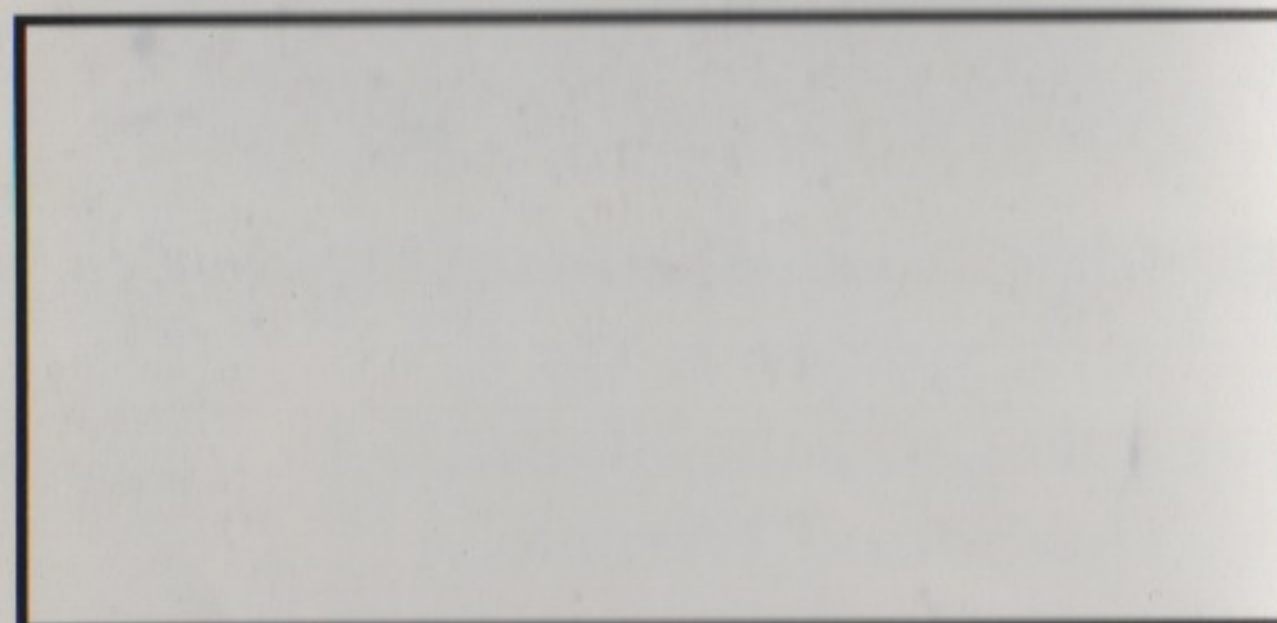

—C.W.O., Salt Lake City, UT

"I woke up one morning and my hearing aid was not functioning. How could I go to work? Fortunately, I had purchased a Sound Wizard on the recommendation of a friend who saw it at a SHHH meeting. I normally use it with a neck loop. I didn't think it would work for me without my hearing aid, but it did. Using the earbuds, I was able to get by until my aid was fixed. It is a comfort to know I have a backup if I ever need it again."

—S.J., Wheaton, IL

universal LISTENING SYSTEM

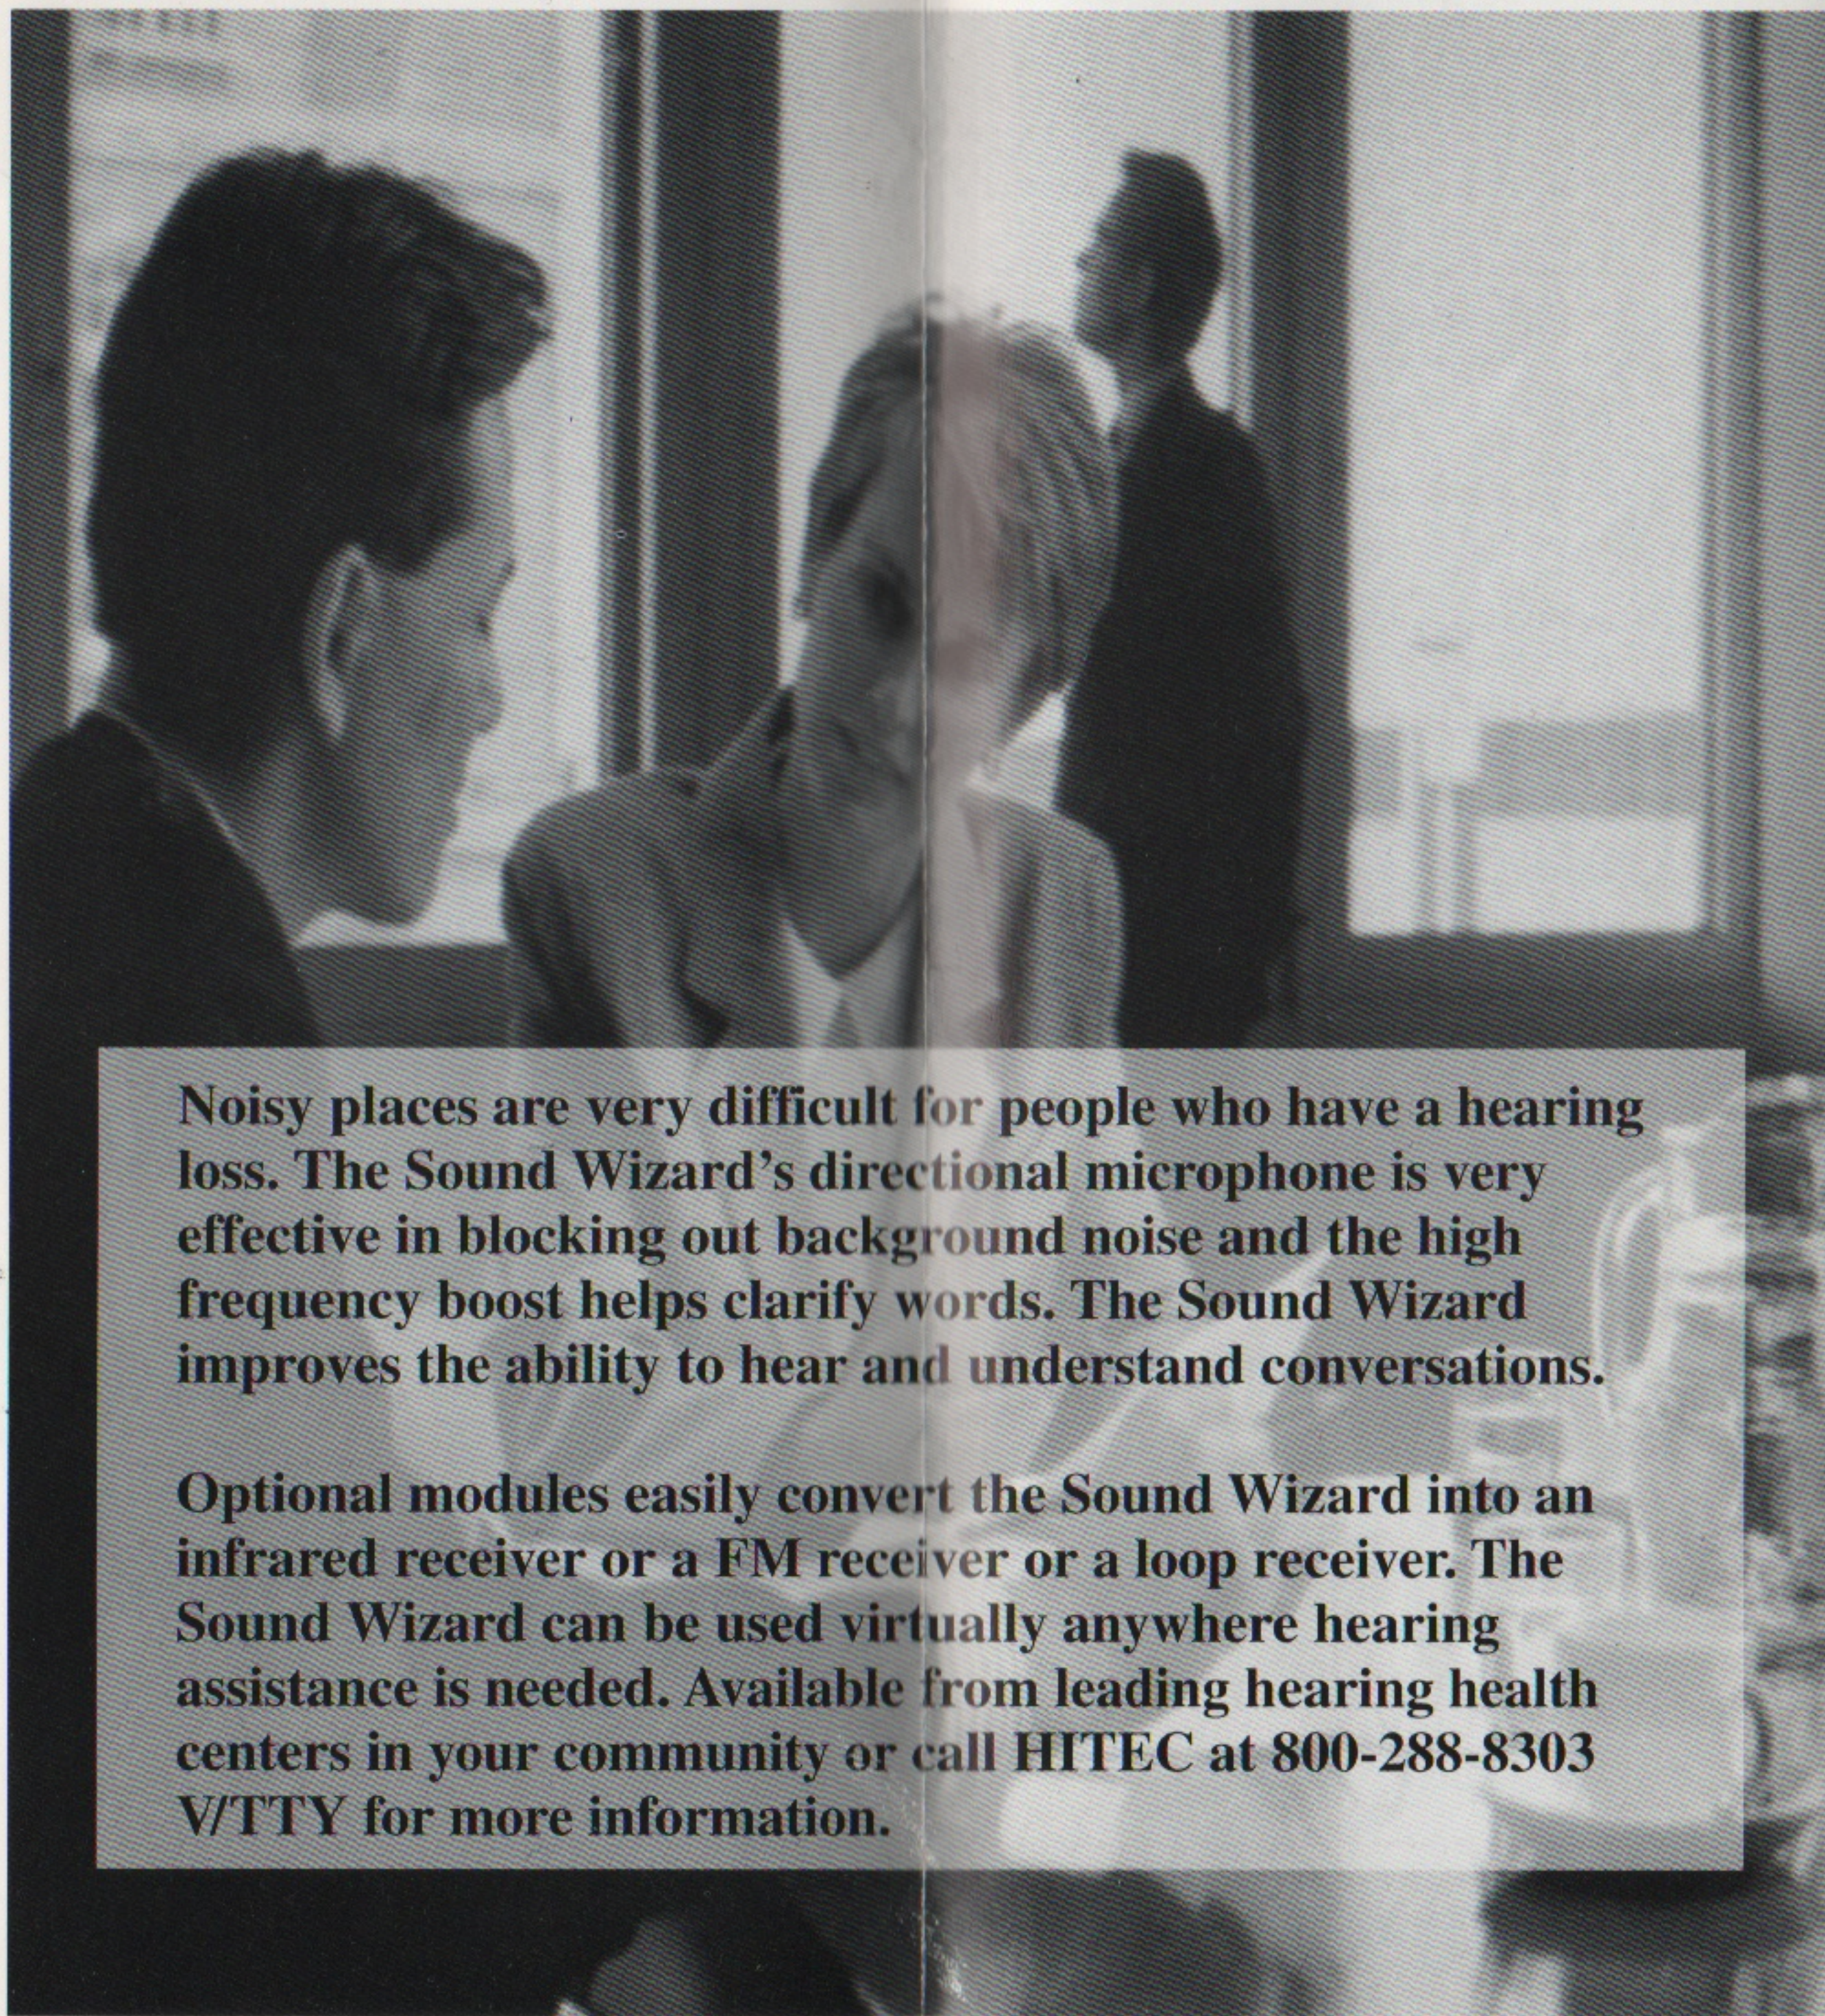

## Focusing on Your Hearing Needs.

# HITEC®

Group International, Inc.

**Noisy places are very difficult for people who have a hearing loss. The Sound Wizard's directional microphone is very effective in blocking out background noise and the high frequency boost helps clarify words. The Sound Wizard improves the ability to hear and understand conversations.**

**Optional modules easily convert the Sound Wizard into an infrared receiver or a FM receiver or a loop receiver. The Sound Wizard can be used virtually anywhere hearing assistance is needed. Available from leading hearing health centers in your community or call HITEC at 800-288-8303 V/TTY for more information.**

## **Sound Wizard Testimonials:**

"I bought my Sound Wizard while being fitted for hearing aids in Prescott, AZ. I must use a personal listening device like this while watching TV. I used a well known device for some years (2 different ones) but they became a maintenance problem. Then I tried another brand, but as with the first brand, I only picked up about every fourth word. The Wizard is a **vast improvement** with its volume and frequency controlled reception. Now I can hear ALL the words—first time ever!"

*—R.L., British Virgin Islands*

"I have found the HITEC Sound Wizard much superior to the Radio Shack Stereo Amplified Listener that I have used for the past two years. I had to stop wearing hearing aids on my doctor's advice because of very sensitive ear canal problems. With the Sound Wizard I can hear really well and especially well in noisy situations."

*—R.I., Portland, OR*

"Being a CPA, I am frequently in meetings with clients. I had a great deal of trouble hearing and understanding these conversations especially when the meetings got noisy. I wear a hearing aid and had previously tried to hide my hearing loss. Using the Sound Wizard has done two wonderful things for me. In meetings, it makes my hearing aid much more effective. It has also caused me to tell my clients about my hearing loss. I tell them that because their conversation is so important to me, I am making additional efforts to make sure I hear and understand all their words. The client response has been simply great and so is the Sound Wizard."

*—C.C., Chicago, IL*

"The Sound Wizard has made going to meetings fun again. With the IR module, I fully participate in the presentations, and with the directional microphone, I fully participate in the side meetings and social gatherings. Thanks for a great product."

*—E.G., Madison, WI*
