

An Efficiency Product For the Reconstruction Period

*Listen with both ears just as
nature intended, and*

*Use both hands, when
telephoning!*

You can do that with

The

Weilaphone

(Not an attachment)

Place the receiver on the Weilaphone;
put the ear tips to your ears and listen.

ELIMINATES OUTSIDE NOISE!

When the connection is poor, or a long distance call sounds faint and far away, the Weilaphone increases the clarity and distinctness of the sound. Thus time is saved from repetition, and misunderstandings are eliminated.

When notes are to be made, papers to be handled, books to be referred to, you can do it all without confusion and without losing a word.

The Weilaphone is a small, compact instrument that can be kept on the desk or in the drawer, and used when needed.

Let us send you one on **FREE TRIAL**. Absolutely no obligations. Check the coupon and mail now.

Weilaphones are sold at high class stationery stores and electrical supply shops. In the U. S. A. the price is only \$10.

Special proposition to AGENTS

What it will do for YOU

- 1: Make the TELEPHONE MESSAGE CLEAR and distinct by directing the sounds you want to hear into BOTH EARS AT ONCE just as nature intended.
- 2: It will make the LONG DISTANCE call as clear as the LOCAL and save you money by eliminating repeats.
- 3: SHUT OUT THE OUTSIDE NOISE just like a telephone booth.
- 4: Give you the FREEDOM OF BOTH HANDS while telephoning.

STANDARD APPLIANCE COMPANY
of America, Inc.

376-378-380 Lafayette Street, New York City.
